DEEP WATER HARBOR

Senator White Opposed to Santa Monica.

ONLY A SOUTHERN PACIFIC JOB

Members of the House Vote Themselves $100 Per Month for Clerk Hire During Vacation.

WASHINGTON, May 8.—With the bond resolution out of the way the senate gave its attention to the accumulation of minor measures before going on with the river and harbor bill. Mr. Mitchell, Republican of Oregon, gave notice that when the last appropriation bill was passed he would press the joint resolution for the election of senators by the people, not for the sake of having further speeches, but of actually adopting the resolution.

A bill was passed to establish a classification division in the United States patent office; granting permission for the erection of a monument at Washington in honor of Samuel Habemann, and appropriating $4000 for a foundation.

The river and harbor bill was then taken up. On a point of order by Mr. Gorman, the committee amendment was stricken out providing that all persons employed on river and harbor works shall be selected and hired by the officers in charge of these works, in order that the officers may be held to a strict responsibility for the execution of the work in their charge.

The following individual amendments were made:

By Mr. Gray, Democrat of Delaware, to permit retired army officers to engage in river and harbor works; by Mr. Carter, Republican of Montana, for a dam across the upper Mississippi at Stubbs' ferry to develop water power; by Mr. Lodge, Republican of Massachusetts, for a survey of Portland channel, Alaska.

This disposed of the entire bill except the reserved amendment for a deep water harbor at Port Los Angeles, in Santa Monica bay, California, and authorizing contracts aggregating $3,098,000 for the work. A vigorous contest was promised on this item, the two California senators, Mr. White and Mr. Perkins being opposed to it. Mr. White offered an amendment for the creation of a board of three officers to report on the relative merits of Santa Monica bay and of San Pedro harbor for the purpose of a deep water harbor. Large easels were brought in the senate and maps of the Pacific Coast placed on them. With pointer in hand Mr. White then called attention to the main points of the contest.

The senator said the Pacific coast wanted a good deep water harbor. Most of the harbors were poor ones. That at San Diego was too remote for a large element of commerce. This demand for better harbor facilities led to the development of the Santa Monica project, and Senator Jones of Nevada built a railroad from Los Angeles to Santa Monica, with a view to ultimate eastern extension, but the road fell into the hands of the Southern Pacific railroad. Mr. White then pointed out that a board of army engineers had recommended San Pedro as the desirable point for a harbor, and that this recommendation was indorsed by Chief Engineer Casey.

Objection was made to this report, and through the efforts of Senator Frye another board, headed by the present chief of engineers, was appointed. Three points—Redondo, Santa Monica and San Pedro—contended before this board, each element being ably represented, the Southern Pacific railroad being represented by one of the best lawyers in California.

This board, made up of eight of the foremost engineers of the service, recommended San Pedro harbor. When this report came before congress nothing was done. The fight in behalf of Santa Monica was still on as though no report had been made. Mr. White traced in great detail the history of the subject.

Taking up the present status, Mr. White urged that the two California senators and the representative from the Sixth California district did not ask for the amendment inserted in the bill for a harbor at Santa Monica and said the overwhelming sentiment of the people of the locality was against it.

Mr. White commented on the "extraordinary and peculiar" conditions by which the senators and local representatives from California were consulted as to the proposed appropriation. It indicated that "some extraordinary" influence had been brought to bear. He commented on the persistency of the Southern Pacific railroad, and declared that this accounted for the extraordinary action.

White spoke of the surprise with which he learned that the paragraph for the Santa Monica appropriation had actually been printed for incorporation in the river and harbor bill, although the understanding had been reached that there should be no appropriation beyond that for the inner harbor at San Pedro.

"So that my state stands on higher grounds than other states occupy," said White. "Some states are forced to solicit appropriations, but in my case they come unsolicited and unwarranted."

The senator commented severely on a communication from the "third house," written by Civil Engineer Corthell, an employe of the Southern Pacific railroad.

The senator repudiated the claim by Corthell that he made an "official investigation" at the request of senators and members. It was Mr. Huntington whom he served.

Gray of Delaware, asked if there was not some official recommendation in favor of the Santa Monica harbor.

"None on earth," answered White, "and further, this appropriation of $3,098,000 is proposed without an estimate or recommendation."

George, Democrat of Mississippi, added further questions. "Do I understand," he asked, "that two boards of army engineers sworn to the performance of their duty, have reported against the appropriation which the committee recommends to the senate?"

"I do."

"And do I understand that the two California senators and the representatives from the district oppose the appropriation which the committee recommend?"

"Yes."

"Is it a fact that no evidence exists in favor of the project except that of the two men in the employ of the Southern Pacific railroad?"

White answered that others had given their opinions and views, but there were no other professional engineering reports.

Bate, Democrat of Tennessee, added that he understood that the commercial bodies of the locality were opposed to the Santa Monica site.

At this point Mr. White yielded, to go on tomorrow, and the senate adjourned.

HOUSE.

WASHINGTON, May 8.—The members of the house today voted themselves $100 per month for clerk hire during the recesses of congress. Under a resolution passed by the Fifty-second congress the members of subsequent congresses received $100 per month for clerk hire during the sessions. Today the proposition to extend this allowance to members during the recesses of congress came up in the form of the Hartman resolution, adversely reported from the committee on accounts. It occasioned some very sharp debate. It had the support of Cannon, chairman of the appropriations committee, but was opposed by Dingley, the floor leader of the majority.

Aldrich, Republican of Illinois, said it would involve an additional expenditure of $216,000 per annum.

The resolution was advocated by Cannon, Morse, Republican of Massachusetts, Hepburn of Iowa, Boutelle and Henderson; and opposed by Dockery of Missouri, Pitney, Republican of New Jersey; Tracey, Republican of Missouri; Wheeler, Democrat of Alabama; Skinner, Republican of North Carolina, and Talbert, Democrat of South Carolina.

The resolution was amended so as to except members who are chairmen of committees, having annual clerks, and as amended was passed 130 to 108. An analysis of the vote shows that 114 Republicans, fifteen Democrats and one silverite voted for it, and fifty-three Republicans, fifty-eight Democrats and one Populist voted against it.

The house today agreed that when it adjourned today it be to meet on Monday. Bills were passed to quiet title to lands in persons who purchased the same in good faith without notice and for a valuable consideration, and to enable the government to issue patents on such lands; and to establish a life-saving station at Point Bonita, Golden Gate, Cal.

On motion of Mr. Stahl, Republican of Pennsylvania, a resolution was passed requesting the President to inform the house if anything had been done to carry out the provisions in the last sundry civil bill directing him to negotiate with the government of Great Britain for the abrogation or modification of the existing regulations of that government which require the slaughter of cattle imported from the United States at the port of entry.

A bill was passed to appropriate $75,000 for the deportation of the Canadian refugee Cree Indians from the state of Montana. There are about 500 of these Indians.

The pension bills favorably acted upon at the last Friday night's session were taken up and passed.

At 4.30 p.m. the house took a recess until 8 o'clock, the evening session to be devoted to the consideration of private pension bills.

ARRANGING FOR THE CHICAGO CONVENTION.

Meeting of Party Leaders—Twenty-five Thousand Dollars Paid In.

CHICAGO, May 8.—Chairman Harrity of the Democratic national committee, with S. P. Herne of Indiana, J. G. Prather of Missouri, T. H. Sherley of Kentucky and Benjamin T. Cable of Illinois, all members of the sub-committee of the national committee, came to Chicago today and went into session at the Wellington hotel. They were joined by Jos. Donnersburger and A. A. Goodrich of the local committee. Mr. Donnersberger handed a check to Mr. Harrity for $15,000, which, with the $10,000 already paid, makes $25,000, leaving only $15,000 yet to be paid.

"When you visit us next," said Mr. Donnersberger, "the account will be cleared."

An agreement was come to by which another meeting of the sub-committee will be held in this city at the auditorium toward the end of the month, when Mr. Donnersberger will hand over the final check. After all this had been satisfactorily arranged, Mr. Harrity said:

"All talk about the national convention being held in some other city than Chicago is bosh. There was not a syllable in the letter I wrote to the members of the local committee a few days ago on which such a rumor could possibly have been based."

After the financial affair had been adjusted, the committee, in conjunction with Colonel Martin of St. Louis, the sergeant-at-arms of the convention, F. Canda, the coliseum architect, listened to suggestions for telegraph arrangements from the Western Union and Postal companies. Mr. Canda also submitted a report in reference to the plan of seating delegates and the audience. Colonel Martin had a report, too, in regard to assistant sergeants-at-arms.

GROUND TO PIECES.

LOS ANGELES LABORER KILLED BY AN ELECTRIC CAR.

He Was Engaged in a Quarrel and Pursuing His Enemy When Struck.

LOS ANGELES, May 8.—The most horrible accident that ever occurred in this city happened tonight, when Sebas Escarciga, a Mexican, was crushed to a pulp by a Pasadena electric car at the corner of Ord and Buena Vista streets.

Shortly before the accident Escarciga was quarreling on the street with a Mexican named Jose Morales. The men finally came to blows and both drew knives. Morales started to run across the street, followed closely by Escarciga, both men failing to notice the electric car which was rapidly approaching.

Morales was several feet ahead of his pursuer and managed to clear the track, but Escarciga was directly in the middle of the track when the heavy car struck him, and the unfortunate man was under the wheels before any one knew what had happened.

His body was literally ground to pieces and scattered along the track for a distance of twenty feet.

Morales was arrested and will be held pending an investigation of the quarrel which terminated so disastrously.

Escarciga was a laborer, 40 years of age, and leaves a wife.

Among the citizens of Whites Bridge who were in Fresno yesterday were John N. Daniel, Nathan Hart, Sr., and L. H. Martin.

ALLEGED FILIBUSTERS

Trial by Courtmartial of the Competitor's Crew.

THEIR FATE IN THE BALANCE

In the Name of the King of Spain the Death Sentence is Demanded.

Copyright 1896 by the Associated Press.

HAVANA, May 8.—The trial by courtmartial of the men captured on board the American schooner Competitor of Key West, Fla., by the Spanish gunboat Menaajera on April 25th, began in the court of justice at the navy yard here shortly before 8 o'clock this morning as a tropical rain shower was falling.

The prosecutor was Lieutenant Miguel Suarez. Before beginning their work the members of the court assembled in the chapel of the navy yard and reverently witnessed the celebration of mass, going thence directly to the court of justice, where many officers had assembled. A guard of picked marine infantry soldiers then brought in the prisoners.

The first to enter the court room was Alfredo Laborde, who is classed as the leader of the illibustering expedition. After Laborde came John Milton, said to be a native of Kansas; William Gildea, said to be a British subject, and Teodoro Mata, described as a fisherman and classed as a witness.

The prosecutor opened the proceedings by describing in detail the capture of the Competitor. He said that Lieutenant Batron, in command of the gunboat Menaajera, was notified by some fishermen on April 25th last that a suspicious looking schooner, apparently a pilot boat, was off Beracosa.

The Menaajera was headed for that part of the coast and when within hailing distance of the schooner, called upon her to show her colors. The schooner did not do so and men on board her jumped overboard and swam for the shore. Two of the latter were seen to go down and others may have been drowned. In addition two more of the so-called illibusters were killed by the rifle fire of the crew of the gunboat while trying to reach the shore. The illibusters who were already on land, continued the prosecutor, opened fire on the gunboat, but did not succeed in hitting anybody. The schooner was then seized.

Lieutenant Commander Butron confirmed the statements of the prosecutor.

Continuing, Lieutenant Butron said he found on board the captured schooner a number of documents, inscribed and classified orders from an insurgent officer, recommendations from Estrada, the insurgent chief, to call on another insurgent leader; proclamations signed by Laborde, lists of the members of the expedition and of the war material on board and a permit for the Competitor to be used as a "lifeboat."

Lieutenant Butron also said that the war material captured consisted of sixty Remington rifles, forty carbines, 200 pounds of dynamite and 60,000 cartridges.

Alfredo Laborde was the first of the prisoners to be examined. He said he left Key West with twenty-four passengers, who at Cape Sable obliged him to put in towards the shore and forced him to take on board arms, ammunition and explosives, saying that they were to transfer the material to a steamer which would meet them at sea.

Colonel Munson, Laborde added, landed on the coast of Cuba eventually and he, Laborde, remained on board the Competitor. He did not fire on the Spanish gunboat, although the men on shore did so. When the prisoner was questioned regarding the insurgent flag found on the schooner he said it belonged to one of his passengers, a man named Quesada, who was among the drowned.

Dr. Elias Bedia declared he had repeatedly refused to take part in any expedition to Cuba, and that he merely went on board the schooner Competitor to say goodbye to some friends. But when the schooner left, his friends refused to allow him to go ashore. He said they did not hoist the national flag.

Toledo Mata declared he went on board the Competitor in order to see the expedition leave, and that the men on board obliged him to go with them. He asserted that not one of the five prisoners in court fired a shot at the gunboat.

William Gildea testified that he was, like Mata, compelled by the others on board to accompany the expedition, although he had only gone to see them start.

John Milton declared he had been compelled against his will to accompany the expedition, which he hand gone to see start. He added that he believed Laborde, the commander of the schooner, was not aware he was taking a party of filibusters until it was too late. Milton further said he was going as a newspaper correspondent to the insurgent camp in order to interview the members of the insurgent government.

The prosecutor classed all the prisoners as traitors and sympathizers of the insurrection. The schooner was classed as a pirate worth about $4000, having on board an insurgent flag valued at 1 cent. He denied that Mata could be considered a friend of Spain, as he was treated on board the schooner in the same manner as the other members of the expedition.

As to Laborde, the prosecutor pointed out that he was the man who had signed the proclamation found on board the schooner when he was captured.

The pilot of the Menaajera and the crew of that gunboat declared that at the time the schooner was captured she was not showing any flag.

In his defense Laborde firmly declared he had not written or received the letters found on board, and that he had not signed the proclamation captured on the schooner.

The prosecutor then read the penal record of Laborde, showing him to have been a forger, thief and kidnapper, and produced letters written by him on board the Competitor to persons at Key West, advising them of the advance of the expedition in Cuba.

Lieutenant Butron, recalled, said he could not affirm that the prisoners captured on board the Competitor fired on the gunboat, and the pilot of the Menaajera, also recalled, declared the prisoners had not fired on the war vessel, and asserted that no cartridges had been found in their pockets.

The prosecutor thereupon read the formal act of accusation declaring the prisoners to be filibusters captured in a state of rebellion against the Spanish government and classified the Competitor as being a Key West lifeboat found landing arms and ammunition on the sea coast of Cuba.

Therefore, in the name of the King of Spain, the prosecutor asked that the death sentence be imposed on all the prisoners.

Lieutenant Pardo, for the defense, said he did not consider the prisoners should be treated as being all equally guilty. For instance, he said, it seemed clear that Laborde and Bedia were more guilty than Milton and Gildea and that Milton was only guilty of excessive zeal in trying to obtain information.

The courtmartial adjourned for the day shortly after 12 o'clock, without having arrived at a judgment on the cases.

SPRECKELS HANDICAP.

Long Distance Event at Ingleside Today.

SAN FRANCISCO, May 8.—The Spreckels handicap, a four-mile event, will be run off at Ingleside tomorrow. The stake has a fixed value of $7500, and as some of the best long distance horses in the country are entered, the event will prove a great attraction, and from present indications the Ingleside track will be taxed to its utmost capacity to handle the vast crowd which will assemble there tomorrow. Although a majority of the crack eastern stables have left for the east, several of them have left horses who have been especially prepared for this stake.

Barney Schrieber has left Doyle to contend for the rich prize; L. Ezell has been fitting up Pepper, while Ed Corrigan enters G. B. Morris, whom he pronounces to be in grand fettle. The latter horse will doubtless be an odds-on favorite. Doyle and Pepper, however, are in excellent shape, and with the allotment of weights should prove dangerous factors in the race. Candid, Sir Reel and Fred Gardner are also in good condition.

Following are the entries and weights: Candid 97, Sir Reel 108, G. B. Morris 97, Pepper 106, Doyle 90, Fred Gardner 100.

A BROKEN HEART.

A "Sweet, False Face" the Cause of the Break.

SAN FRANCISCO, May 8.—Coroner Hawkins today received a letter from a man who signed himself as J. B. R. Olsen of Los Angeles, in which the writer said his body would be at the bottom of the bay by the time the letter was received.

"I have been in love with a sweet, false face," writes Olsen, "and she would not have me. I fell in love with her at the corner of Kearney and Geary a little over a week ago. Her name is Lillian Bowman, and she lives at 105 Grove street in this city. I have written to her to meet me, and still she won't come, for she loves some one else."

Miss Bowman declares she has never seen her desperate admirer to her knowledge, but declares that she has received a number of letters from him in the past week, begging for an appointment.

If Olsen has made his threat good it is not known to the morgue officials.

STOCK BROKERS FAIL.

A Boom in the Market That Proved Fatal.

SAN FRANCISCO, May 8.—There was a boom in the mining stock market today, but it was fatal to at least three brokers, whose failures were announced at noon. The brokers who are in difficulty are Charles P. Harris, E. L. Atkinson and Henry L. Fox. The various amounts in which the firms have failed is unknown, but it will require six figures to designate the total.

The flurry in the stock market was made five days ago by the finding of a good streak of gold ore in the Brunswick lode, which parallels the Comstock.

FAREWELL SALUTE

TO THE SALVATIONISTS OF THE PACIFIC COAST.

Commander and Mrs. Booth-Tucker Fire a Parting Volley—Advice to Soldiers.

SAN FRANCISCO, May 8.—Commander and Mrs. Booth-Tucker left this city tonight and are now on their way north to Portland, Ore. As the two stood in the waiting room of the ferry building at the foot of Market street they jointly composed the following farewell message:

To the Salvationists of the Pacific Coast and to our friends:—We gladly seize the opportunity of a few good-bye words.

We would assure you, on behalf of the council and ourselves, that our souls are full of appreciation for the warm and generous welcome that you have given us for our work sake. Your sympathy, your assistance and your kindness, will long live in our memory. We go forward comforted with the conviction that you will stand by the principles and purposes of the Salvation Army in the future as ever you have done in the past.

We are assured that a glorious future lies before you. No past accomplishment must satisfy you. No previous baptisms of love and power must content you.

My comrades, go forward, go faster, go deeper to where the weak and most despairing and sorrowful await the coming of your feet, the sound of your voice and the message of hope and deliverance which you bring.

Let no storms appall you, or obstacles discourage you; no enemies daunt you. God is with you. The rising is his own. Its opportunity is the gift of heaven. Its work is sealed by the blessing of God.

Shoulder the cross. Stand close by one and fear none. Love all. Hold fast. We shall meet again. We are with you in spirit. Your servants and leaders under the blood and flag for the salvation of America.

NO FUNDING BILL IN OURS.

The Republicans of California in convention assembled did many judicious and commendable things, but among them all not one was wiser than the adoption of the anti-funding resolution. Without that plank the many merits of the platform would have seemed obscure to a great many of the voters of the state; to their minds the other excellencies would hardly have compensated for such a "one thing missing." The funding bill is a live issue in California, one of the livest of issues, in fact, and no omission by any party can make it anything else. We firmly believe that a failure to have passed the resolution would have cost the party thousands of votes in this state in the coming election.

And if the committee on platform had had its way, there would have been such a failure. Its platform was prepared, and it contained nothing concerning the funding bill. Let nobody flatter himself that the oversight was unintentional. It would have been as impossible to have overlooked the funding bill at this time as to have overlooked the Sierra Nevadas in looking eastward from this valley. There is hardly a thing that could not have been more easily overlooked. The committee deliberately left it out of the platform.

Giving the committee the benefit of a belief in its honesty of purpose, it is fair to say that it made a great mistake in allowing such an omission in the platform it reported. If the omission was in the interest of peace and harmony, they would have been too dearly bought at such a price. It was a place where a choice was squarely to be made between the people and the debt-evading corporation, and silence would have been to choose the latter.

Moreover such a significant silence would have misrepresented not only the Republican voters of the state; it would have misrepresented the convention as well. The proof of this assertion was seen in the enthusiasm and almost unanimity with which the delegates voted for the anti-funding resolution after it had been introduced by Fresno delegates. With the exception of about a half dozen votes, the body was a unit in protesting against the passage of a funding bill. Silence on the important issue would have grossly misrepresented the feelings of such an assembly. The commendation of our congressmen—always excepting Grove L. Johnson—for so faithfully laboring in the public interest and opposing the measure, while it was a graceful and deserved tribute, was of trivial importance when compared with placing the party on record in opposition to the continuance of monopolistic oppression in California.

If the Fresno delegation had remained in their seats, if they had introduced no resolution in opposition to a funding bill, and if no other delegates had been found to do the essential work which they did, it is impossible to doubt the strange silence of the platform on so vital a subject would have cost the party thousands of votes in the November election. But a moderate acquaintance with popular sentiment is required to recognize the truth of this assertion. Whether the defection consequent on such a silence would have been sufficient to defeat the party it is impossible to say, but it would have been serious in any event.

Under the heading of "traitors to the people" the afternoon paper refers to the attitude of the Republican convention on the railroad issue as follows:

Does the Republican party of California believe that it can go before the people faced with such conditions and still hope for success? They have proven that their objections to corporations are made only at such times when there is no possibility of placing them into execution. Will the people sanction such unfaithfulness? Let us see.

The Republican state convention with practical unanimity declared emphatically against the funding scheme of the Pacific roads, at a time when such declaration is fraught with the utmost importance. It could not, in fact, have been made at a time when it would be more likely to affect adversely the interests of those who are working to put the measure through congress.

The critical stage in the history of the funding scheme has just been reached; silence on the part of the Republican convention would have reasonably been accepted by congress as acquiescence in the scheme on the part of the Republicans of this state; on the other hand the clean-cut and emphatic protest against the measure will be a tower of strength to the state's faithful representatives in congress and a staggering blow to the backers and manipulators of the infamous proposition now before that body.

The Republican convention demonstrated its fealty to the cause of right and justice on this proposition, and the people of California will put the stamp of their approval on the work there done when they go to the polls in November.

It is a matter for congratulation that the senate has decided to investigate the circumstances under which bonds have been issued by the government. There is a prevailing belief that Senator Pettigrew was right when he announced on the floor of the senate that the issues were "rotten and dishonest and corrupt to the core." If the general suspicion is well founded, the fact should be known, and if it is not, nobody should be more anxious than the administration to have its innocence demonstrated. The investigation, whatever may come of it, will be due to the popular belief that there is something rotten in Denmark.

If the women could vote this year it is safe to say that the Republican ticket would have an unprecedented majority even for this Republican state.

New York Republicans have come to the conclusion that the only thing to beat McKinley will be to throw their strength to Harrison. This will be done if Indiana instructs for Harrison.—*Hanford Democrat.*

That is the trouble with all the opposition to McKinley. There have been too many ifs in the way. If the people of every section of the country had not persisted in demanding that he be made the presidential nominee the Platts and Quays and lesser bosses who have so persistently opposed him might have succeeded in defeating him. If, by any possible combination of circumstances, McKinley is defeated in the convention there will be consolation in the fact that it will take a mighty good man to do it. His strength cannot be diverted to any of the weaklings.

The Democratic papers say that McKinley's campaign is run by a syndicate. It is not the one to which Cleveland and Carlisle have been selling bonds at less than their market value, at any rate. The truth of the matter is that McKinley is the choice of the people and will be nominated in spite of the opposition of the bosses.

A few months ago the Democratic press announced with details and great particularity that Messrs. Platt and Quay had made arrangements to take charge of the Republican party and run the national campaign from start to finish. The announcement made interesting reading, but it seems to need revising.

The prospect of war with England and Spain may go a-glimmering, but the Fresno school board we have with us still.

RANDOM REMARKS.

The Democratic party does seem to be considerably divided on the financial question, but, then, it probably is just as well not to say very much about it.

An exchange speaks of Morton, Reed and Quay as "running for the Presidency." It would be interesting to know what the exchange would consider a slow walk.

A Stockton Evangelist has coffee and sandwiches furnished to his auditors. He is a philosopher; he has discovered the fact that it is hard to start a man with an empty stomach on the road to heaven. Any woman could have told him that the chance of saving a hungry man is mighty slim, and probably some woman did.

It is announced that Aubrey Beardsley, the gentleman who is responsible for the "poster woman" style of "art," is dying. In the midst of the sorrow which this announcement will cause, it may not be out of place to suggest that it would in a measure compensate if Mr. Beardsley could arrange to take his pictures and their imitations along with him. He may be a nice man, but the delirium tremens "art" which he has inflicted on the world in the form of a fad is unforgiveable. It is several degrees worse than the Trilby fad, and anything worse than that should die of softening of the brain. Beardsley said that he pictured things as he saw them, and, instead of taking the statement as proof conclusive of his insanity, the "mad world" hastened to follow his example, and art for a time seemed about to go to the "demnition bowwows." Posters appeared to be afflicted with the jimjams, and even the covers of reputable periodicals looked as if they had slept over night on an artist's palette. The best thing that can be wished for Aubrey Beardsley is that his style of art may soon follow him behind the veil.

COLLIS' WAIL OF WOE.

"While you fellers are a jubilating," said the man who dropped in, "it does seem 'eif you ought to have a little consideration for the eminent Mr. Huntington's feelings. Just think of 'em! Here he's been a rustlin' an' a workin' there in Washington, and a maintainin' his private corps of missionaries, an' all for the public good, as he has frequently an' eloquently remarked, an' now, here comes this dum California Republican convention an' blights his hopes an' hits his missionary plans a witherin' belt under the jaw. You bet it's tough, an' I can't help feelin' sorry for him. So I've writ this here ode, namin' it 'Collis' Wail of Woe,' an' 'sposin' it'll fit-tin'ly express his feelin's an' prob'ly git me a pass. P'raps you won't want to publish it, but if you've any consideration for the feelins' of an old man that's jus' about to drop off into his marble mausoleum, you'll do it. There's some things that charity dictates."

As charity dictates the publication, it goes:

Oh, fortune's stings,
And other things,
And gobs of blighting sorrow!
Oh, sudden rout
That knocked me out!
I'll fire Steve Gage tomorrow.
For, oh, it's hard to work for things,
And see some other pull the strings;
It's hard to fix the wires and screws,
And have somebody knock them loose;
It's hard to part with yellow stuff
In vain; it's most almighty tough.
And so, and so,
My tale of woe
I'm warbling quick and quicker.
If I have luck,
Steve'd better duck,
For I'll make him the sicker.

Oh, wads of pain,
And chunks of bane,
And heart throbs of emotion!
I'll make them sick,
Those fellows slick
By the Pacific ocean.
For, oh, in Washington, D. C.,
I labored long and patiently
To fix things up; I fixed them right,
When up there jumped a country wight,
And with a wild alfalfa shout
He knocked my plan of campaign out.
My dollars sped,
My schemes all dead,
My heart a tomb of sorrow,
Yet one thought cheers
Through all my tears—
I'll fire Steve Gage tomorrow.

MATINEE TODAY AT THE BARTON.

At 2 o'clock today the Rose Stillman company will present "The Galley Slave" at the Barton. There will be a large attendance. Tonight they will present the sparkling four-act comedy of "The Country Girl." During the action of the play singing and dancing specialties will be introduced by Mollie Stockmeyer and dancing specialties by Master Ralph.

"A TRIP TO CHINATOWN."

There is little doubt that "A Trip to Chinatown" which comes to the Barton opera house Monday evening of next week, will prove one of the best drawing attractions seen at this popular playhouse, and the management feel confident that the business will be fully as large, if not larger, than that done earlier in the season. The performance is under the personal direction of Mr. Mitchell, and the smoothness of the entertainment is positively guaranteed. The company have all been carefully selected by Mr. Hoyt for their especial fitness to represent the characters in his "musical trifle," as he is pleased to term the piece, and includes beside Harry Conor, the well known American farceurs Geraldine McCann, George Beane, Sadie McDonald, Patrice, Amelia Stone, Madeline Lack, J. Aldrich Libby, Frank Lawton and Arthur Pacie.

I, E. H. Morgan, have made special preparation to do all kinds of carriage building. Repairing and painting a specialty. I have with me one of the finest painters in the state, and that is G. Van Keuren. We are right up to date with the latest styles and tricks. We don't say we are the leading carriage painters, but we do say there is none in town that can discount us. I will do work and take some trade in wood, hay, barley, etc. New rigs built to order. New and second-hand buggies for sale. Have a good second-hand four-spring wagon to trade for a buggy. I don't advertise myself as being the leading carriage painter and run a second-hand paint shop, nor play a second violin—I run a first-class business and play the first part right up to time.

Special Notice.

Having decided to remain in Fresno, I wish to inform my old patrons and others that I have taken charge of E. H. Morgan's carriage painting, where I would be pleased to see one and all who desire the finest and best work that is done in the city in that line.

How to Treat a Wife.

From Pacific Health Journal.

First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not, therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind ..., a tender look, will do wonders in chasing from her brow all clouds of gloom. To this we would add, always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best, and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Smith Bros., cor. Hughes hotel.

Dyspepsia.

E. W. Joy Company—Gentlemen: I have taken your Vegetable Sarsaparilla and can say I have never seen anything equal to it. I have suffered ten years with dyspepsia, not being able to eat anything but milk and brown bread. Life was nothing but misery for me.

Now I have a good appetite, eat anything I wish and feel no disagreeable effects from it. I wish I could tell all dyspeptics and urge them to try your Vegetable Sarsaparilla.

BUILDING THE BRIDGE

ENGINEERS NOW BUSY ON THE SAN JOAQUIN.

The Camp of the Valley Road Bridge Builders Near Herndon.

The announcement in the columns of this paper that the engineers of the San Joaquin Valley road were at Herndon and that material for the construction of the bridge over the San Joaquin river was already on the ground created great enthusiasm. Quite a number of persons have arranged to make a trip to the river tomorrow just to get the first glimpse of the long-desired competing railroad.

It will be interesting to these visitors, and to the public generally, to know exactly where to go and what is to be seen on the spot. It is a very vague direction to speak of the camp of the Valley road bridge contractors being "at or near Herndon." Many persons have an idea that the shortest way is to drive to Lane's bridge out Blackstone avenue. Others would go to Woods' grove, leaving the high road to Herndon about a mile south of the village, and thence nearly due east across the "hog-wallows." Either of these trips will conduct the visitor far away from the camp.

A representative of the REPUBLICAN who visited Herndon yesterday found a change already discernable in the place. Teams were busy hauling lumber and piles from the switch of the Southern Pacific railroad to the bridge-construction camp, which is about a mile above the county bridge and close to a solitary conspicuous clump of gum trees, a mile and a half east of Herndon. A road has been made direct to the camp and is easily found as soon as the visitor enters the village. The distances to the camp are pretty nearly as follows: From Herndon direct, one and a half miles east; from the county bridge, one mile east; from Wood's grove, two and a half miles west; from Lane's bridge six miles west. The site of the camp can be easily seen from Herndon and it is hardly possible to mistake the way.

The bank on the north side of the San Joaquin is steep and rocky at the point where the bridge will cross. The depth of water on that side is from eight to ten feet at ordinary seasons. On the other bank, where the camp is pitched, the conditions are precisely opposite; the water is shoal and a sandbank runs flush with the bank. A trial boring in midstream showed that fifty-two feet of sand and loose gravel would have to be penetrated to reach a secure foundation. This explains the carload of big piles which lay yesterday at the Herndon switch.

The pile driver is already on the spot where the operations will commence, namely, on the south or Fresno county side. Mr. Murphy of Atwater, Merced county, who has the contract for the hauling, has fourteen head of stock at work, and there are in the camp twelve men with the pile driver, a Chinese cook, and about half a dozen general laborers.

The engineering corps in company with J. T. Williams, assistant engineer of the bridge construction department, spent Thursday on the spot and made all the arrangements necessary for starting the pile driver about the middle of next week. The pegs are all in place so that the work can be pursued steadily and confidently.

It is not intended to hurry matters on the construction of the bridge, security being an important consideration. The contract allows fifty-five days for this part of the work, and it will be probably at least fifty days more before the bridge is finished. It will be a wooden structure; the only iron work being the bolts and braces.

Only a small part of the frame work and timbers of the bridge has yet arrived. The piles are however on hand, and the driving of these will be the first matter. The carpenters will not arrive for some weeks, being at present engaged on the Merced river bridge. When the entire force is on the ground there will probably be sixty or seventy men in camp.

"RAILROAD" SOCIAL.

ENJOYABLE ENTERTAINMENT AT DE WITT HALL.

A Passenger Car in Which There Were Many Amusing Situations.

The Young People's Christian Endeavor Society of the Christian church gave another unique entertainment at DeWitt hall last evening. A few weeks ago the society gave a "bloomer" social, and last night's affair was a "railroad" social. There was a large attendance and the entertainment was highly enjoyable.

A "railroad" passenger car was represented on the platform by two rows of double seats, with the aisle between. The seats were filled with passengers, some being masked and rigged up in comical style. The train was on its way to the state convention of Christian endeavorers, which meets in San Jose on the 14th.

The program opened with a piano duet by Mrs. George L. Warlow and Miss Jennie Knowles. The amusing dialogue, "The Train to Mauro," was then rendered. Mr. Thom acted as ticket agent, Miss Emma Cameron as Mrs. Buttermilk, and Sidney Harvey as Johnnie Buttermilk. This was followed by a banjo solo by Miss Daisy Walker.

The train was now started and Conductor George Anderson proceeded to collect tickets. He had a lively time with Fred Harvey, who was trying to beat his way. The train then stopped, the brakeman announcing the station as Madera. During the stop Miss Florence Chittenden rendered a vocal solo.

The train started and another scene of beating the conductor followed. The next stop was at Merced, where Miss Gertrude Walker and Frank Craycroft rendered "Goin' Somewhere." The peanut boy here entered, calling out his wares. At Lathrop a piano solo was played by Miss Jennie Knowles.

They proceeded and the conductor again found Fred Harvey on the train beating his way. Assisted by the brakeman they put him off. The train next stopped at Niles, where C. Allison Telfer alighted from the car and sang a solo, which was encored. A drunken man next gave the conductor trouble.

The "Baldheaded Man" was next rendered. Frank Laning, the subject with the hairless pate, boarded the car. He sat in front of little Errett Shelton. The boy rendered his part by making comments on the bald head and the flies traveling on it in a style which would have done credit to a professional actor. Milpitas was the next station reached, and there a quartet, consisting of Miss Gertrude Landrum, Mr. Warlow, Mr. Telfer and Mr. Knowles sang "Good Night." The train reached San Jose, where the delegates alighted and proceeded to "Hotel Endeavor," the refreshment room.

The situations throughout the performance were very amusing. A sociable time followed, during which strawberries and cream were served. The purpose of the affair was to raise funds to pay expenses of sending the society's delegates to the state convention.

Cyrus Sargent is over from Minturn.

THE SUPERVISORS.

A Gentle Reminder of the Contractor's Rights.

A slight oversight on the part of the Board of Supervisors on Thursday afternoon was gracefully recognised and corrected yesterday.

The matter was one which not unfrequently occurs in private contracts with builders and others, where changes are made without a proper previous understanding. At present the pipes which lead rain water from the roofs to the ground run inside the building. If they became clogged up, as at present, owing to the fire, it is a difficult matter to clean them out. The board, under the impression that this matter of the water pipes was under their control, had invited bids for supplying them. Superintendent Lucas and Foreman Smith appeared before the board yesterday and showed that in dealing with this matter the supervisors were changing the contract and taking the work out of the contractors' hands.

On motion of Garrett the board unanimously voted to return the bids, so rescinding the action of the previous day. Four names were added to the indigent list. The afternoon was devoted to a visit to the scientific road leading from the end of Ventura street eastward.

INSTALLATION SERVICES.

Program for Sunday at the Cumberland Presbyterian Church.

Installation services will be held tomorrow at the Cumberland Presbyterian church in this city. An interesting program has been arranged, beginning at 8 a.m. and ending after 8 p.m. Rev. J. W. Walker, late of San Jose, will be installed as pastor of the church.

The installation sermon will be preached by Rev. N. W. Motheral of Hanford. The charge to the congregation will be given by Rev. T. W. Pendergrass of Visalia and Rev. C. H. Reyburn of Hanford. Greetings will be received at 3 p.m. by the pastors of the several denominations of Fresno. At 4 o'clock a children's meeting will be held. At 6.45 the Y.P.S.C.E. will hold service, and at 7.45 Rev. Reyburn will talk on the history and doctrines of the Cumberland Presbyterian church.

A CONTEST FILED.

THE ESTATE OF MILLIONAIRE A. J. DAVIS.

A. E. Snow of Fresno is Attorney for Claimants—Very Large Fee in Sight.

Attorney A. E. Snow of this city is retained in the suit now pending in the court at Butte city, Montana, to contest the alleged will of A. J. Davis, the millionaire who died in 1890, leaving property valued at $7,000,000.

Mr. Snow represents three claimants to the estate; Mrs. Hulda Queen Snell of Tehachipa, who claims to be the widow of Davis; Mrs. Jesse Morrow of Fresno who is the daughter of Mrs. Snell, and Mrs. Calhoun of Hildreth, another daughter of Mrs. Snell. Miss Elenor Calhoun the well-known actress is a daughter of Mrs. Calhoun and expects to share in the estate.

A. J. Davis left a will, or what purports to be his will, entered for probate after his death; and the hope of the heirs above mentioned is based on their expectation of being able to prove that the alleged will is a forgery. A few days ago Mr. Snow filed a suit of contest in the Montana court. He has been working on the case for a couple of years, and last year made a trip to Massachusetts to examine into the condition and nature of the property left by Mr. Davis in that state. It was found that he left cash and stock worth $1,115,000 in Massachusetts.

C. J. Stilwell, the detective who was prominent in the Heath case, is working with Mr. Snow, and has made several trips into Arizona, Montana and elsewhere in search of testimony. The late Harry I. Thornton was engaged by the heirs above mentioned to fight the case through the courts, but his business relations rendered it necessary for him to withdraw from it. He had a contract with the heirs which he represented that he was to have one-half of the estate if he should be successful in the contest. Mr. Snow now has a contract, presumably containing the same terms as that held by Mr. Thornton, and if such is the case there is a very large fee in sight.

AT THE BARTON.

The "Country Senator" Played to a Good House.

Rose Stillman and her company of players presented the "Country Senator" to a large house at the Barton last night. It is a four-act comedy, written by Pettit, and principally for an ingenue. The part of Ruth was rendered in splendid style by Rose Stillman. She received a curtain call at the end of the third act. Mr. Snow, the leading man of the company, was clever as usual. The supporting company sustained their parts well.

Tonight they present a four-act comedy called the "Country Girl." A matinee will be given at 2 o'clock today.

M. Benas went to San Francisco on this morning's early train to attend the marriage of his brother in that city. Mr. Benas will spend a couple of weeks visiting on the coast.

For more than a hundred years the Shakers have been studying the remedial properties of plants. They have made many discoveries, but their greatest achievement was made last year. It is a cordial that contains already digested food and is a digester of food. It is effective in removing distress after eating, and creates an appetite for more food, so that eating becomes a pleasure. Pale, thin people become plump and healthy under its use. It arrests the wasting of consumption.

There never has been such a step forward in the cure of indigestion as this Shaker Cordial. Your druggist will be glad to give you a little book descriptive of the product.

MATINEE MUSICALE.

Professor Fabian Gives Another Private Entertainment.

Prof. Benj. W. Fabian's piano studio in the Griffith block was well filled with prominent society people of Fresno yesterday afternoon. Those present declared that the "musical pop" was a great success.

The program opened with a "polonaise," rendered charmingly by Miss Grace Reichman, followed by two of Chopin's waltzes, played with good technique and expression by Miss Tessie Huber. Mrs. T. J. Kirk sang a lullaby, which brought forth a deserved encore. Miss Alice Moore played the "Spinning Song" and a melody in a most artistic manner.

All the young ladies performed their solos entirely from memory, and their work proved that Professor Fabian is helping to raise the musical standard of Fresno. He played Rubenstein's "Octave Etude" and Raff's "Spanish Caprice" in such a manner as to be recalled a number of times. Prof. J. M. Wood, the blind violinist, was a leading feature of the afternoon. His listeners were charmed by his fine playing.

After the musical program refreshments were served, and the guests paid a visit to Professor Bauer's painting studio in the same building.

Those invited were: Mrs. O. J. Woodward, Mrs. T. Hughes, Miss Katherine Hughes, Mesdames Reichman, Davison, Wyatt, Huber, Gartenlaub, Herringhi, Walter, Wickersham, Siebly, Banban, Misses Maud Davison and Ellen Meade.

THE MADERA FUGITIVES.

Deputy Sheriff Timmins and Posse With Blood Hounds in Pursuit.

The outlaws who escaped from the Madera jail stole a horse and cart near town and drove towards the mountains. The horse was staked out and the fugitives hitched it to a cart which they found in an adjoining barn.

They paid the Wideawake ranch a visit in the morning for breakfast and left the cart there. At Antone Jacob's ranch near Hildreth they left the horse.

On Thursday evening a posse left Madera to take up the chase from the Wideawake ranch, ten miles from town, with Deputy Sheriff Timmins and his blood hounds. Those who went were Sheriff Westfall, Constables J. W. Green and Asa Holbrook, District Attorney Miles Wallace, Under Sheriff George Merritt, Citizens T. B. Redfield and Pat Gray, and Deputy Sheriff Timmins. Up to last night nothing had been heard from the posse.

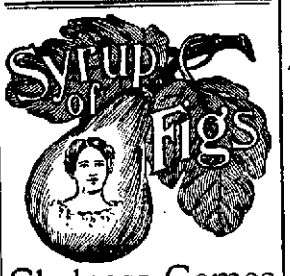

George L. Barker is down from Toll House.

NOT VERY SERIOUS.

The Pear Blight Will Not Do Much Harm.

Alexader Craw, quarantine officer and entomologist for the State Board of Horticulture, has examined the pear twigs sent him by J. F. McDonald, the county horticultural commissioner of Fresno county, and pronounces the disease not serious. Instead of the dead twigs being the effect of an insect boring into the wood, they are caused by fungus on the leaves, known as the pear tree blight.

The treatment is spraying with the Bordeaux mixture. The Fresno county horticultural commissioners are keeping a close watch on the orchards of the county, and no disease will make much headway before discovered.

Gladness Comes

With a better understanding of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

VICTORY!

Competition has met its Waterloo and its Sedan. The crowds of customers who during the last few days have passed through

Wiener's I Street Stores

Have attested by the liberality of their purchases their true appreciation of their belief in us and their knowledge of the fact that we are doing just as we promised.

Our constant business rule has been honest dealing—no misrepresentation—and the best values the world's markets could afford. The result is that

WIENER AND LOW PRICES

Are synonymous terms, and the great trading public points to our stores as the great regulating bargain center just as surely as the magnet points to the North Pole.

For Years We Have Made the Pace,

And that is what we are doing today, giving competition a pronounced thrashing—often to the tune of 30 and 40 per cent. To see is to believe. Come and we will prove it to you.

Many people wink the knowing eye and say Wiener has been too successful to give up any part of his business.

We admit with pardonable pride the success we have achieved in this community, but we declare positively our intention of curtailing our business for purely personal reasons; hence the reason of our SLAUGHTERING PRICES and placing before the public bargains never before heard of. You remember the decimation of the French on the field of Gravelotte; it was a terrible slaughter. We are making this sale the Gravelotte of prices in Dry Goods, Clothing, Hats, Shoes, etc. As we have already told you, WE ARE SELLING TO REALIZE, AND NOT FOR PROFIT.

Now is your opportunity, and we pressingly invite you to avail yourselves of it. The goods are going rapidly, and we are not buying new Dry Goods. Every day you delay means lots of splendid opportunities lost. So come early, and remember

A BURGLAR ESCAPES.

He Jumps for Liberty From a Moving Train.

The Selma *Irrigator* says Deputy Constable Delashmutt has returned from San Francisco, where he had been to get Frederick Barns, who was under arrest there for stealing a number of articles from the residence of Dr. Gilreath of Selma.

Mr. Delashmutt secured his prisoner, also the stolen goods at the office of the chief of police. He left the city with his prisoner, whom he had handcuffed. When the train was about a quarter of a mile from Livingston, Merced county, and running at a rate of twenty-five miles per hour, the prisoner was permitted to step to the hydrant to get a drink; just at this juncture the conductor entered the door and passed by the prisoner, who, much to the amazement of the officer and every one in the car, rushed through the open door and jumped from the train, making his escape.

Constable Delashmutt, as soon as he saw what had occurred, jumped from the train, which was then stopped, and tried to recover his man. It being pitch dark however he could do nothing, so returned to the train and rode into Merced, where he and Deputy Sheriff Dowst secured a rig and began a search for the escaped criminal. They immediately notified the officers at Turlock and Modesto to guard every avenue or suspect likely to lead to the recovery of Burns.

The officers spent all Monday night and all day Tuesday searching in the Merced river bottom and other available hiding places for the burglar, but found no trace of him, other than the ones by which they tracked him to the river bottom.

Mr. Delashmut being a young officer whose official career has always been above reproach naturally feels "sore" over his misfortune, but such events are exigencies that arise in the experiences of all officers of the law and cannot always be avoided.

An Alameda View of It.

From the San Francisco Examiner.

Dr. George C. Pardee, the man who, with W. R. Davis, made the fight before the committees for the primary delegates, arrived this morning, having remained in Sacramento last night to preside over the meeting of the Third district convention. He explained his view of the situation thus:

I think that the man who sized up the situation at Sacramento most truly was "Blinker Murphy." Steve Gage was up there making his fight against an anti-funding plank, for the appointed Alameda county delegates, most of whom were his personal friends, and for Grove Johnson. The exact strength of the railroad in that convention was shown when they succeeded, by the most herculean efforts, in saving Grove Johnson and influencing the committee on platform to keep out any reference to the funding bill. This success was defeated upon the floor of the convention, and though they moved heaven and earth they could not find a man on the floor of that convention that dared to move a reconsideration of Short's resolution. All this talk about that Short resolution having been inspired by the defeated Alameda county delegates in revenge for having been thrown down by the railroad is bosh. Not one of those delegates would have dared to write such a resolution. This is a distinct victory of the decent element in the Republican party of this county over the railroad gang. It was the last stand of the old Carothers-De Golia-Gage gang, and they were swept off of the political earth.

MINERS STRIKE.

New Men Employed are Driven From the Mine.

ST. PAUL, May 8.—A Butte, Mont., special says: Two hundred and fifty miners, comprising all the employes of the Rarus mines, struck last night after the foreman had resigned on account of dislike for Timekeeper Applegate. General Manager Heinze put new men to work today and the strikers drove them from the mine. A threat was made to hang the new foreman, Gibbons, and he was forced into a carriage and driven away. The mine owners have refused to take up the cause of the strikers and the men have become desperate, as the management refuses to take them back. Trouble is feared.

Death the Great Equalizer.

From the Tulare Register.

Topics has all along tried to cheer the hearts of the people with the encouraging declaration that the great fortunes which have been piled up since the beginning of the great war are being scattered into the common fund again by the grim hand of death. Millionaires have done their best to avoid the inevitable by forming corporations for the management of their estates, but their efforts are proven to have been of little avail. An investigation made by the San Francisco *Chronicle* shows that during the past twenty-one years the estates of fifty-three millionaires, aggregating $175,000,000, have been probated and settled and have gone into the hands, principally, of 312 persons, although more than 400 shared to some extent in this aggregated wealth. Very few of these big fortunes have been kept together, and the constant tendency of great fortunes is, not to become greater, but to be subdivided more and more.

Where Washington Took the Oath.

The ancient stone which marks the spot where George Washington was first sworn in as President of the United States, from under the bronze statue of Washington in front of the sub-treasury on Wall street, New York, has been removed. The rain and frost had so injured the stone that the authorities decided to remove it. The historical slab will become a memorial tablet, as the treasury authorities will place it in a glass case, hermetically sealed, against one of the walls in the interior of the sub-treasury.

Freak of Lightning.

During a recent thunder storm the house of William Drennen, near Loydeville, Ohio, was struck by lightning. The bolt tore open a closet door and scattered over the floor some clothing hanging in the closet. The carpet was also burned somewhat. The bolt passed clear through the house and tore up the well curb, but did no damage other than that mentioned. The family were asleep at the time, but aside from somewhat of a fright were not in any way injured.

A NERVE FOOD FOUND.

You Must Feed the Nerves, not Strain Them; Build Them up, not Stimulate Them; Coax Them, not Drive Them.

Ordinary Foods do not Supply Sufficient or Proper Nourishment for Wasted Nerves—They Must be Carefully Treated on Scientific Principles.

THE CASE OF A PARALYTIC WHOSE NERVES WERE SO NOURISHED THAT HE WAS CURED.

From the Courier-Herald, Saginaw, Mich.

Do you see those two men walking up the street? One has a vigorous, firm, elastic step, his head well up, his eyes bright—a picture of a sound and perfect man. The other is bent, his knees weak and unsteady, a listless air about his whole make-up. He has the appearance of one who is broken in health and who has to whip himself to every task. The difference between these two men is a difference of nerve power. With nerve power comes energy, enterprise, force, vigor—all things which make existence enjoyable; without it the muscles cannot act, the brain cannot think. Bear in mind that life is nerve power, and if you wish to keep it you must feed the nerves. Do not simply stimulate them, but coax them—feed them. Give them the food which will renew their life and make them sound and healthy, that they may ward off disease.

Probably paralysis is the nearest disease to nerve-death that we know, and we therefore cite a case of it below, to show what a certain famous nerve-building preparation can do to feed and absolutely restore almost hopelessly wasted nerves.

There are but few in the Saginaw Valley but who have known personally or made the acquaintance indirectly of W. H. Dawson, 618 Union Avenue, Saginaw, Mich., West Side. It is here that the hand of sickness has fallen heavily and caused a man to become widely known and extremely pitied.

It is the hand of fate that often nips in the bud that which nature has started with the greatest predictions for the future. Until three years ago W. H. Dawson has known but little of sickness and pain but the last few years have brought with them untold suffering. With many doctors taxing their brains for something that might benefit, all remedies known to the scientific medicine man were applied and without avail. The patient meanwhile failed and became worse but still lingered to fulfill a wonderful mission which will be the cause of less suffering among his fellow creatures. It was that unseen hand directing all things who permitted this one man to live in misery so that the world might become enlightened.

To hear the pitiful story of one who has suffered who could not move a muscle for one whole year and who is now convalescent through the aid of a wonderful medium might lead one to believe that miracles are performed in this day and age. They are, but not as in times of old. This time it is through the hand of man that life is restored.

"Until the fall of '92," said Mr. Dawson, to a reporter, "I was as hearty and as full of life and vigor as any young man could hope to be, in fact sickness was then unknown to me. About this time I was taken sick with la grippe and after having two relapses my spine became affected. This trouble grew worse rapidly and in March of '93 I was completely paralyzed from my waist down. Having taken everything my doctors could prescribe without any effects, I decided to go to the Indiana State Institute at Indianapolis hoping to receive at least some benefit from their specialists. I was there for a period of ten months during which time I was taken sick with scarlet fever which left me in a worse condition than ever before.

"As soon as I was able I was removed to Saginaw for my friends could not see any improvement under this treatment and besides the expense was entirely too great for me to entertain thoughts of staying there longer. The most annoying period of my existence was lived after my return to Saginaw. I sometimes prayed that my worthless life might be taken away that my suffering might be ended and that the care I was to others might be brought to a close. I did not then dream that God had yet a mission for me to fulfill. That work which I can now put all my soul into with which my being is thrilling, is proclaiming to sick and suffering humanity the wonders of Dr. Williams' Pink Pills. They have given me new life.

"It was in April of '94 that a friend told me of the Dr. Williams' Pink Pills and asked me to try them. I had no faith in anything, in fact my life was now burdensome and I hated to take anything that might chance to prolong it. I was at length persuaded and the pills were obtained. When I began taking them I was pale, weak, helpless and almost without life, as before stated, was completely paralyzed from my waist down, my limbs were simply bones and skin with no life or feeling in them and had been so for one year. Before the first box was used I could move my toes a little and could begin to feel new life all through me. This was encouraging and I continued to use these marvelous pellets.

"In two months time I could move my limbs about on the bed and by the time another month had seen me swallow this medicine, to which I owe my life, I was able to get out of bed alone. It has been just about one year since I learned of Dr. Williams' Pink Pills and during that time I have made such marked improvement that I gladly proclaim what they have done for me to all the world and ask you fellow sufferers to try them and receive new life. My life, my all, I owe to Dr. Williams' Pink Pills.

"I am now comparatively healthy with good color and high spirits, and every day brings new strength and more happy life through the continued use of Dr. Williams' Pink Pills."

W. H. DAWSON.

Subscribed and sworn to before me this 27th day of May 1895. P. J. EVANS.
Notary in and for Saginaw Co., Mich.

The foregoing is but one of many wonderful cures that have been credited to Dr. Williams' Pink Pills for Pale People. Diseases which heretofore have been supposed to be incurable, such as locomotor-ataxia and paralysis succumb to this wonderful medicine as readily as the most trifling ailments. In many cases the reported cures have been investigated by the leading newspapers and verified in every possible manner and in no case has the least semblance of fraud been discovered. Their fame has spread to the far ends of civilization and there is hardly a drug store in this country or abroad where they cannot be found.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, (50 cents a box, or six boxes for $2.50—they are never sold in bulk or by the 100) by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.
